

COLLEGES GIVEN OVER A MILLION

Rockefeller Fund to Assist the Smaller Universities

DRURY IS GIVEN A SUM

Negro Schools Receive Big Sum to Carry On Their Work

NEW YORK, Feb. 29.—Appropriations to colleges and universities totalling \$1,675,000 were announced in the annual report of the general education board, issued today. The board was founded by John D. Rockefeller to promote education in the United States "without distinction of race, sex, or creed."

A half million dollars was apportioned to the Harvard graduate school, Drury college of Elizabeth, Mo., and Tulane university.

New Orleans received \$200,000 each.

Others included: Wesleyan Seminary, \$125,000; Virginia Wesleyan college,

Dickinson, \$125,000; College of St. Catherine, St. Paul, Minn., \$100,000; Emory and Henry college, Emory, Va., \$125,000; Salem Institute, Winston-Salem, N.C., \$125,000; Wisconsin college, Fulton, Mo., \$125,000; Cornell college, Mount Vernon, Ia., \$125,000; Dakota Wesleyan University, Mitchell, S.D., \$100,000; Jamestown college, Jamestown, N.D., \$50,000.

Appropriations for medical schools amounted to \$750,000 distributed as follows: Johns Hopkins University, \$150,000; Washington University, St. Louis, \$150,000; Meharry Medical School, Nashville, Tenn., \$150,000.

The board contributed \$167,555 to negro schools, mainly for annual maintenance, and \$11,000 for experimental education contributed to Tuskegee college for the support of the Lincoln school.

In addition, the board appropriated \$1,179,500 for regular support given southern state universities and southern state departments of agriculture for work in the standardization of seeds and for the promotion of rural education.

Referring to Mr. Rockefeller's recent gift of \$76,000,000 of which \$50,000,000 was for medical education, the board's report says that it will now be possible to have medical schools and clinics distributed throughout the country on a full-time basis. The system of university clinical teaching organized at Johns Hopkins, Washington University and Yale will be introduced at the University of Chicago and at Vanderbilt university.

As a result of the board's survey of public education in Delaware last year, the report says that a comprehensive school code modern type has been adopted. A similar survey is in progress in North Carolina and appropriations have been made to supplement funds provided locally for surveys in Virginia and in Alabama.

To Work Among the Indians.

PONCA CITY, Feb. 29.—Anti-tuberculosis work is to be started in the near future among the Ponca Indians, the second largest tribe on their reservation, according to announcement here from officials of the Anti-Tuberculosis association.

The Indians are subject to this disease because of their manner of living.

Recently the federal government made a health survey of the tribe, but no report has as yet been made on the findings.

An Atticat.

Nowhere else under the sun is there such assumption of autocratic and universal power. Nowhere else under the sun does any public servant pretend that he embodies such omnipotence. Nowhere in the world is there today and nowhere in the world has there been in the last 100 years anything like his despotism. Mr. Wilson makes of democracy under him in America.

Mr. Wilson, back from the sick room to the long unoccupied executive office of the American government, is running true to form.—New York Sun and Herald.

RHEUMATISM
A DREAD DISEASE

Caused by Acid Poison in the Blood.

Rheumatism is a disease that is to be dreaded. If neglected, sooner or later it will become chronic and incurable in nature, when the best a sufferer can hope for temporary relief. Thus an afflicted may suffer a number of years and the slowly reaches, enduring all the time the most severe agony.

One disadvantage of rheumatism is the persistent character of the disease, the pain all the time undergoing a constant variety of changes, which breaks down and wears out one's system and gradually undermines the health and sometimes makes the sufferer a burden for others.

If you are suffering from rheumatism, go to your doctor or dentist, you can make no mistake in taking Prescription C-2223, which the doctor will have authorized, all directions in giving it having been given. If two \$1.00 bottles do not satisfactorily relieve you again, Prescription C-2223 comes to the rescue again, without danger or other dangerous side effects. You experience no inconvenience from its treatment and your money is refunded if you don't agree that this prescription is the best rheumatic and blood treatment on the market.

While taking Prescription C-2223, use a strong, heavy regulation C-2223 Silver Pill. They do not dissolve or melt. This is very necessary.

The sooner you begin taking Prescription-

ation C-2223 the better, so go to your doctor, get your prescription and you will see him on receipt of \$1.00. Write Dept. 127, 2223 Laboratories, Memphis, Tenn., 38103. Please enclose literature and a sample of Silver Pill.

BISHOPS ARE RILED

Strong Protest Sent to England About Allowing Turks to Stay in Sublime Port.

NEW YORK, Feb. 29.—One hundred American Episcopal bishops have sent to the archbishops of Canterbury and York a cable message protesting against the proposed retention of the Turks in Constantinople and the violation of Armenia. The message, made public tonight by Bishop Charles Summers, Bishop of New York, read in part:

"We are grateful for your leadership in the efforts against the proposed retention of the Turks in Constantinople and the violation of Armenia. An compromise with the Turks will be a violation of crime and will outrage the conscience of christendom. We believe that Armenia, landlocked and robbed of her fairest portions, cannot achieve real independence in self-supporting."

"We respectfully but energetically protest against the proposed measures and appeal to the people of Great Britain to prevent the perpetration of a fresh act of injustice against the martyr, Armenia. The American people have always placed implicit faith in the pledge of Great Britain. We cannot believe that Great Britain will disown us by failing to do full justice to Armenia."

BEATING A LITTLE DUST.

They other demands are alarmed on the one side because of the wonderful enthusiasm and solidarity now characterizing the republican organization under the splendid leadership of Mr. Bass and his associates, and they are making a determined effort to cover the splittings that have rent their own party organization six different ways. Democratic organs cannot dodge these plain facts so the only resort they have is that of trying to beat a little dust into the pyle plow eyes.

BROKEN CUPS FOR MEETING.

WASHINGTON, Feb. 29.—A glass jar brought by Arkansas as president of the southwestern ecological congress has called a meeting of the governing board at Little Rock, Ark., March 3, to decide when and where the annual convention of the congress shall be held and to make plans for an educational campaign as to the purpose of the con-

JAPAN LENDS CHINA

Nipponese Part of Consortium Loan Turned Over to Republic.

Beaten by the Associated Press.

TOKIO, Wednesday, Feb. 28.—Viscount Uchida, foreign minister, announced to the cabinet council last night that Japan had advanced to China through the specie bank a million yen as part of the \$25,000,000 loan agreed upon by a coalition of four great powers, including Japan.

A recent Peking dispatch stated that in view of the approach of the Chinese new year and the failure of the government to pay its debts, the representatives recommended for a coin advance to cover pressing obligations in pursuance of China's acceptance of the \$25,000,000 loan stipulation, Japan had signified its intention of advancing the money independently.
